## KITCHEN PRINCESSES

Once every two years EuroCucina takes place, as part of the most important interior event in the world: The Salone del Mobile, Milan. Here, the leading kitchen manufacturers present their latest 'kitchen princesses'. An army of culinary chefs was flown in to convince the enormous crowds of visitors of the advantages of smart cooking, using smart appliances and basic culinary ingredients.

Right: Gaggenau's grand architectural statement: the 'Gaggenau Home'.  
Below that: the new Lounge by Veneta Cucine with advanced modularity and maximum functionality.  
Bottom: home appliance manufacturer Neff, with their Brandstore Collection. Chef Misha Sukyas and his sous-chef Alessandro Lodeserto gave culinary demonstrations during Eurocucina 2018.
